MEMORANDUM FOR DIRECTOR, CENTRAL INTELLIGENCE AGENCY

ATTN: [REDACTED]

25X1A

SUBJECT: Review of [REDACTED] Performance

25X1A

1. The Air Force Photo Intelligence Section is in no position to prepare a detailed critique on the [REDACTED] reports. The photographic results of the missions reported on by [REDACTED] are received in the Branch on a fragmentary basis, and exploitation limited to very specific instances so that accuracy and completeness of [REDACTED] reporting cannot be determined. Generally speaking, the Immediate Reports, which are the only [REDACTED] reports received, conform favorably to specified format and detail of reporting. There were two rather conspicuous instances in the past of incorrect identification of aircraft, but this does not necessarily reflect the overall quality of the reports.
